

# Whatsapp Sniffer .apk Download for Android

**S** [softstribe.com/android/whatsapp-sniffer-apk-download-for-android/](http://softstribe.com/android/whatsapp-sniffer-apk-download-for-android/)

9/11/2014

Who don't know WhatsApp in Android applications world? If you are an Android user then you will not ask this silly question no way. But if you are not an Android user or a beginner Android user then let me give you an introduction about WhatsApp. It is a messaging and a free chatting app [1] which have almost conquered and replaced the local messaging services in civilized countries of the world. WhatsApp Messenger is a cross-platform mobile messaging app which allows you to exchange messages without having to pay for SMS packages as we usually do with our mobile phones.

WhatsApp have become one of the most popular Android apps available on Google Play Store. People from all around world have downloaded and installed WhatsApp to their Android smartphones/tablets thousands of times. Even out there are many people who are trying to use WhatsApp on their laptop PCs, in this way I've written an article about [How to Download and Install Whatsapp in PC/Laptop](#). Those who have laptop and desktop PCs with wi-fi connection in their PCs can also enjoy WhatsApp without Android device. People who are users of WhatsApp they must take care of their privacy because there are a couple of privacy issues lead to this messenger app. And let me show you how? Read the rest of article to know how your private chats, audios and even videos are not secured and how you can take care of them.

## Whatsapp Sniffer Android App

Your private chats that took place on your WhatsApp messaging app are not secured because a new Android application called "**WhatsApp Sniffer**" is a tricky app that can steal your private chats, audios and even videos. Are you scared? Not, why because the WhatsApp sniffer have no idea about your password? No, it is not about password but let me tell you what WhatsApp sniffer does?

If you have a WiFi connection at your home and that WiFi connection is being used by many fellows in your home. Now, here WhatsApp Sniffer work like awesome, if your family members use WhatsApp and you want to know the chats, audios, and videos of your family members from the app. Whatsapp sniffer app allows you to receive the text

messages, audios, and videos from the phones that uses the same WiFi with you. You can read the article one how to [hack WiFi password](#) to get access to your girlfriend's WiFi to find the chats of her on WhatsApp.
